# OWASP Philadelphia

Meeting 1

Intro and Agenda

- Welcome!

- What am I doing here?

- What's OWASP, anyway?

- What are WE doing here?

  - What's a Chapter?

  - What should we do?

  - What can your chapter do for you?

Intro and Agenda

Bogdan
(boglarry)

Matt
(higgs)

So what is OWASP?

https://owasp.org

- Top Tens
- Cheatsheets
- Projects
- Conferences
- Chapters

The OWASP® Foundation works to improve the security of software through its community-led open source software projects, hundreds of chapters worldwide, tens of thousands of members, and by hosting local and global conferences.

So what is OWASP?

2024 Philly Chapter Objectives

- Co-create OWASP-Philadelphia's structure

- Gain exposure to OWASP vision and priorities

- Commit to sexy security shit regularly

- Educate local community on digital security

Co-create OWASP-Philly's structure:

Short term:

- Pick cadence of meetings

- Determine general interests

- Determine preferences for chapter focus

- Discuss possible roles

Co-create OWASP-Philly's structure:

Short term: Pick cadence of meetings, determine general interests, determine preferences for chapter focus

Ex: Group objectives of 2024:

Project-based work

Educational-based work (educational speaker series)

Run a project, combination, other

Professional Networking

Just talking Shop

Roles

- Support Meeting Coordination
    - Venues
    - Speakers
    - Finances
- Meeting Minutes
- Media: Remote Live Stream
- Speakers/Presenters/Workshops
- Speaker Reviews (dangerous)
- Outreach

Input!

Time to be heard!

…then discuss

Membership   https://owasp.org/membership/

Member Benefits

Membership benefits: (subject to change)

- Grow your network
- OWASP chapter meetings, regional and global events
- Training and event discounts
- A vote in our OWASP Global Board elections
- Employment opportunities
- Meaningful volunteer opportunities
- Give back and advance software security with an OWASP project
- Membership Portal .
- Google Workspace account for term of membership. - OWASP.org account

Vendor provided benefits to individual members:

- Hands-on application security training through the SecureFlag Platform
- Access the Ubiq Platform, an easy-to-use, developer-first encryption-as-code platform.
- If there are any issues on the vendor platforms. Please, reachout to the vendor directly for assistance.
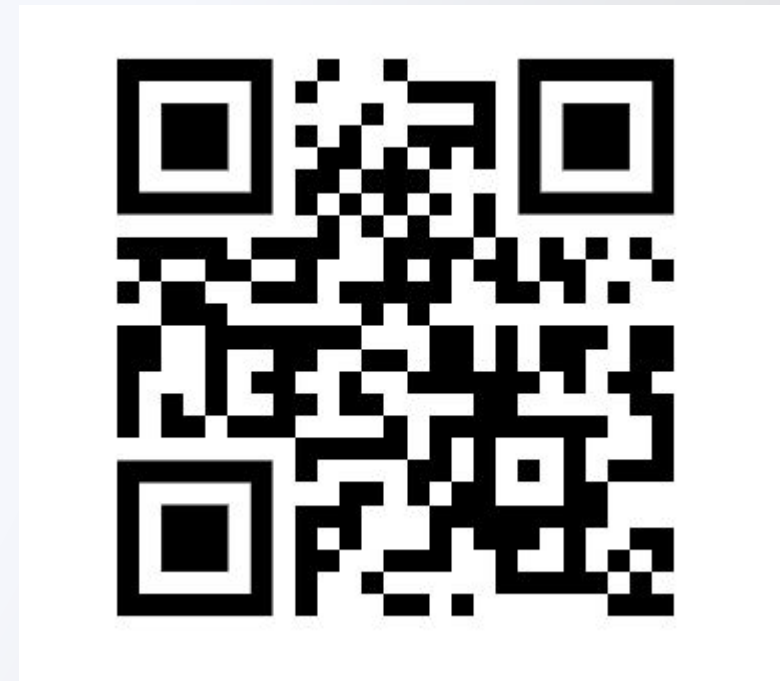

2024 Chapter Priorities

Please rank order the following topics for OWASP-Philly's 2024 chapter priorities

Legend: Priority 1, Priority 2, Priority 3, Priority 4, Priority 5, No interest in this item

Categories: Project-based activities, Education-based learning (speaker series), Networking, Community Outreach, I was thinking something else...., I'm just looking for a place to talk shop over a soda
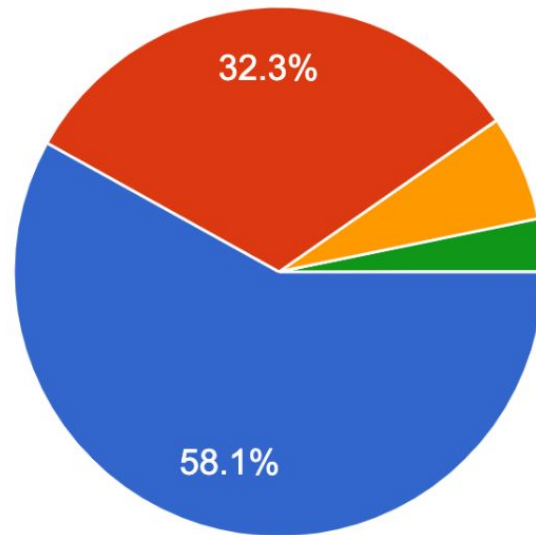

2024 Chapter Priorities

What's your preference for meeting cadence?

31 responses

- Let's meet every month!
- Le'ts meet every-other month!
- Once a "Quarter" is perfect!
- The charter rules say you only need 3 meetings per year...
- This is probably my last meeting.

2024 Chapter Priorities

Talk Format

28 responses

- 25-30 mins
- 45-50 mins
- Workshop
- 20 min + q/a. Tech ppl talk too long
- Never going to say goodbye

17.9%

64.3%

2024 Chapter Priorities

Which roles might you be interested in?

31 responses

- Speaker/ Educator — 13 (41.9%)
- Attendee — 28 (90.3%)
- Chapter Support - Streaming (… — 4 (12.9%)
- Chapter Support - Public Outre… — 8 (25.8%)
- Tech Project Team Member — 14 (45.2%)
- Chapter Support - Art — 2 (6.5%)
- 1 (3.2%)

2024 Chapter Priorities

What types of projects you are particularly interested in?19 responses

Security in this new AI goldrush era.

No clue

Embedded electronics, automotive, cloud

Learning

CTF

Security livestreaming

Web Security

ASVS, Cheatsheets

?

Never going to let you down

Reverse engineering, blockchain, peer to peer networking

tools, shitty (but effective) python scripts

Practical applied security

Any development that allows me to learn and contribute to it. Possible a project thatv

ASVS, threat modeling, application architecture

WordPress, React, ChatGPT, AI

Cyclonedx

AI Security, Theat Modeling, ProdSec Strategy, Offensive Security

AI Security (including GenAI), threat modeling, Secure SDLC in general

2024 Chapter Priorities

What topics would you like to have sessions about (speaker sessions, workshops, etc)18 responses

AI, Health Tech

Security of AI systems

Dev, bug bounty, CTF, mobile, IoT, hands on

Pentesting, web testing, container security testing

Penetration testing, how to prepare for receiving a pen test

Top Tens

Hiring, blockchain, 2600

No opinion

Novel techniques and new tools

Never going to run around and desert you

Pentesting, security tools (blue, red, purple team)

Security products that work, product surveys, security product quick starts

Bug bounties, breaking into systems. zero click hacks. Application of various vulnerabilities. Capture the flag events. Hackathons.

Anything and everything

Devsecops

AI Security, Theat Modeling, ProdSec Strategy, Offensive Security

Secure Coding practices, enhancing developers experience with security teams and tools, anything about security as code, will be glad to hear about any other topic which is practical

THE END!
